

## Statement of Academic results 2019 – 2020

**In the academic year 19/20 there was one student in Year 11 who was eligible to be entered for external examinations.**

This student was set to sit functional skills exams in English and Maths and entered for the Trinity College London Arts Award.

Unfortunately, due to Covid-19 online examinations at test centres were cancelled and teachers' assessments were used as a method of assessing achievement. Although our assessment partner was happy to facilitate online assessments, for obvious reasons they could not accept external teacher assessments.

For this reason, the Year 11 student gained a Bronze Award in Level 1 Award in the Arts and all Functional Skills assessment coursework was handed to the College of Further Education so that they could successfully sit these exams in November.

In November 2020, School for Inspiring Talents was granted authorisation to be an Exam test centre by JCQ. All exams and coursework marking will now be managed internally.
