

School for Inspiring Talents

Term Planner - Autumn 2023

Jungle Class

Maths

We will be improving our independence with the four operations.

We will also be learning new concepts with negative numbers and measurements.

Literacy

Our writing topic immerses us in the world of dragons. Dr Ernest Drake has left us his research and I believe I have some dragon hunters in the making. Will there be any dragon sightings this term? You'll hear it here first!

Our text is:

Midnight Fox, a beautiful story of a strong friendship between a boy and a fox set in rural America.

Computing

We're incredibly lucky to be joined again by Marc from Sound Communities who will introduce the class to coding through the ever-popular Minecraft Education Addition.

Food Prep & Nutrition

We continue to build our social and culinary skills while adding interesting dishes from Europe to our menu!

R.E.

As we travel Europe in our PBL, we'll explore some of the prominent religions in different areas of Europe and learn about different celebrations & traditions from different faiths.

Physical Education

This term we will focus on Multi Skills and Fitness.

Each lesson will involve students developing fundamental movement skills, teamwork and communication.

Project-Based Learning

Our project this term explores the question 'What is Euro-railing?' - taking the boys on a virtual journey through Europe, learning as they go about the countries, their capitals and what the cities have to offer. We will debate our findings and create the best rail travel itinerary. It will then be down to them to sell tickets for their epic journey... Will they convince their peers they've chosen the best destinations?

PSHE / RSE

Alongside age-appropriate relationship & sex education, we'll learn about self-assurance, personal strengths and skills. We'll discuss the use of kind and unkind words and explore the impact of the things we say on our relationships and the community around us.

Music

African Drumming:

- Call & Response Rhythms
- Maintain steady pulse & patterns
- Group performance
- Perform songs & drumming
- Start to identify rhythmic notation

Forest School

Focus on self-awareness, relationship-building & enjoying time in nature. Cooking fajitas, pancakes and pizza rolls. Creating dens, big art with nature and sensory treats.

Lifeskills / Preparing for Adulthood

We'll consolidate knowledge needed daily in adult lives: telling time, understanding public transport timetables, working with & budgeting money, identifying fake online content.
