Term Planner - Summer 2024

The Shack Class

Maths

Functional Skills Entry Level 2/3 & Level 1

After the round of exams in the spring term, we will continue to make progress and help students prepare for their next level of functional skills exams, to enable the learners to get the highest level qualification they can.

The focus of learning this term will be on space shape measure using capacity distance time and temperature. Later on in the term we will do some more practice papers to ensure that the students' exam techniques are polished.

English

Working towards Functional Skills Entry Level 2/3

Learners will complete the remaining requirements of the Entry Level 2 qualification alongside preparations for the Entry Level 3 qualification.

Reading:

- Reading & listening to different texts in a group / individually
- Analysing / watching the film to create discussion
- Answer simple comprehension questions
- Identify adjectives in descriptions
- Use a dictionary to check the meaning of words
- Discuss main points from different texts
- Accurately spell key words

Writing:

- Improving use of conjunctions & plurals
- Identify simple adjectives
- Select correct plurals
- Use conjunctions in writing
- Spell regular plurals correctly
- Communicate information in words, phrases and sentences
- Write a short paragraph.

Our reading text is:
'The Hobbit'

R.E.

Good, Bad, Right and Wrong:
Includes understanding British Values and looking at different Religions and why people have faith.

Menu

Home Cooking Skills (BTEC)

The focus for the summer term is 'Street Food' and preparing for a BBQ as part of upcoming whole school activities. All students will plan a menu for a party and cook more independently using skills from prior learning completed over the academic year.

Physical Education

Multi Skills

Includes: Supporting our students to experience a variety of sports including tennis, cricket, rounders, basketball, dodgeball, fitness and orienteering.

PSHE / RSE

We'll be thinking about future goals, careers, & aspirations alongside preparation for adulthood. As part of PSHE, students will have 1:1 sessions with Careers South West to help make positive choices about their futures, possible careers and work experience options. Students will work through a checklist of skills to show they are making progress towards their adult life. These include travelling independently, personal care, domestic skills, telling the time and managing money.

Science

(Entry Level GCSE)

Learning will be split into 2 halves -

Physics Paper 1B:
Waves and radiation, Describing Waves, Electromagnetic Waves

Chemistry Paper 1B:
Separating mixtures, breaking down substances, acids and metals

Project Based Learning Horticulture 'Make & Grow'

The continued long-term plan is build our own polytunnel for school. In the short term we are improving our skills through small achievable projects, such as flowerbeds, clearing spaces, building platforms and improving outdoor areas around the site.

We've already nurtured seedlings into small plants to set the class on its way! The skills we are developing purposefully work across the curriculum - in particular we're focusing on horticulture, construction, DT, and science alongside improving our fitness, determination and our mental health and well-being - as well as improving our school environment.

Forest School

Whittling skills, campfire cooking, fire lighting and safety, team building!
